” Integrated Report 2024 by Toda Corporation” Published

Toda Corporation (Head Office: Chuo-ku, Tokyo; President: Otani Seisuke) has issued the “Integrated Report 2024 by Toda Corporation,” which compiles the financial report for the fiscal year 2023 and the achievements relating to sustainability activities.

*This year, we have changed the title of our publication (previous title: Corporate Report).

This report is created with clarity and conciseness to ensure all our stakeholders understand our philosophy, management strategies, sustainability activities, and the specific value we create.

Looking towards a future filled with unprecedented changes, this report includes messages from our executives, updates on our “Mid-term Management Plan 2024 Rolling Plan,” financial strategies, human resources strategies, and business strategies, among other topics. We also introduce a variety of initiatives based on our materiality (key issues) as outlined in our Sustainability Vision 2050.

This report, along with our official website’s Sustainability Site and IR Site, serves as one of our crucial communication tools with our stakeholders, and we strive to enhance it further.

Integrated Report

It includes concise key information concerning both financial and non-financial aspects of our sustainability activities, among others. Additionally, it highlights topics of high interest to our stakeholders related to the story and initiatives of our group’s value creation.

This year’s report includes new additions, such as a unique feature on TODA BUILDING, disclosures on natural challenges based on TNFD recommendations, and a dialogue between the Chair of the Board of Directors and Outside Directors.
