Selected as CDP “Supplier Engagement Leader” (Highest Rating) for the Sixth Consecutive Year

Toda Corporation (Head Office: Chuo-ku, Tokyo; President: Seisuke Otani) has been selected as a Supplier Engagement Leader—the highest rating in the Supplier Engagement Rating—by CDP^{*1}, an international non-profit organization conducting environmental assessments (Headquarters: London), for the sixth consecutive year.

We have also been selected for the CDP 2025 Climate Change A List, the highest rating, for the eighth consecutive year^{*2}.

We are working to address climate change with the goal of achieving net-zero greenhouse gas emissions across our business activities, including our supply chain, by 2050. CO₂ emissions from buildings account for approximately 40% of total global emissions, and these emissions originate from various phases such as construction, use, maintenance, and demolition. Accordingly, collaboration with a wide range of stakeholders is essential to advancing climate change measures for buildings.

Going forward, we will continue to deepen engagement with stakeholders, including suppliers, and work to address climate change across the entire supply chain.

Supplier Engagement Leader Badge

*1 CDP is a non-governmental organization (NGO) established in 2000 that operates a global environmental disclosure system.

*2 Selected for the highest-rated A List in CDP 2025 Climate Change; the only general contractor to achieve eight consecutive years on the A List.

The Company will optimize its management resources to promote revenue growth and improve capital efficiency, aiming to enhance corporate value while achieving its medium- to long-term target of 10% ROE.
