Toda Corporation Issues Integrated Report 2026

Toda Corporation (Head Office: Chuo-ku, Tokyo; President: Otani Seisuke) has issued the “Toda Corporation Integrated Report 2026,” which summarizes the financial report for fiscal year 2025 and achievements in sustainability activities.

This report has been prepared with easy-to-understand and concise editing so that all stakeholders can understand our company's philosophy, management strategy, track record of sustainability activities, and the specific value Toda Corporation creates.

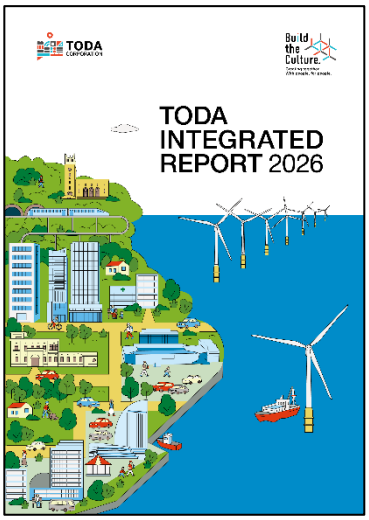

Aimed at a future in which significant changes are expected, the report includes messages from the management, an overview of the “Medium-Term Management Plan 2027” and progress related to it, financial strategy, human resources strategy, business strategy, and interviews with Board Members. In addition, we introduce various initiatives based on our five newly established materiality issues (key issues).

We consider this report to be an essential communication tool with all stakeholders, along with our sustainability and IR websites, and will continue to enhance it.

Integrated Report

This report provides a concise overview of key financial and non-financial information, including sustainability activities. In addition, it highlights topics of high interest to our stakeholders, such as the value creation story and initiatives of our group.

This fiscal year, we have provided a detailed explanation of our key management term “Distinctive Value” and described specific initiatives related to it. We have also newly added qualitative descriptions illustrating the impact of our functional strategies (such as safety, quality, the environment, and digital transformation) and sustainability initiatives on corporate value. Furthermore, we have included a section that highlights the adoption of our brand slogan within the company and the results achieved, focusing particularly on the Build the Culture Day event held this past February. This content is designed to provide a deeper understanding of our group.
