Consolidated Financial Results for the Third Quarter

Ended December 31, 2022

1. Qualitative Information on Consolidated Financial Results for the Three Months Ended December 31, 2022

(1) Explanation of Operating Results

During the nine months ended December 31, 2022, the Japanese economy saw an easing of restrictions due to COVID-19 pandemic, and the normalization of social and economic activities were underway, centered around personal consumption. However, the outlook remains uncertain due to the factors such as Japanese yen's depreciation as a result of global monetary tightening policies and the prolonged situation in Ukraine leading to inflation.

In the construction industry, orders received increased compared with the same period of the previous year, mainly in the private sector, but the business environment remains challenging due to soaring prices of various commodities and other factors.

The Toda Group announced in May 2022 the Medium-term Management Plan 2024 - Rolling Plan. While evolving the value that we provide to customers in each of our core operations, namely, the architectural construction, civil engineering and strategic businesses, we position the New Toda Building project, overseas business and renewable energy projects, such as the floating offshore wind power generation business, as priority management initiatives. By making investments for future growth in these businesses, the Group has been strengthening its business portfolio. During the period under review, the Group continued to invest in growth with the active involvement of top management in order to achieve medium to long-term growth. To ensure our ROE (return on equity) target of 8% over the medium to long term while promoting growth investments, the Group is also working to strengthen its investment process by using indicators such as IRR (internal rate of return) and cost of capital to manage post-investment profitability.

Under these circumstances, the Toda Group's consolidated results for the period under review were as follows.

Consolidated net sales increased 6.8% year on year to ¥381.0 billion, mainly due to higher sales in the architectural construction business, domestic group companies business, and overseas investment and development business, despite lower sales in the civil engineering business.

Operating income increased in the overseas investment and development business compared with the same period of the previous fiscal year, while the architectural construction business posted a provision for losses on construction contracts for several projects due to the rise in prices of steel frames and other materials caused by changes in the market environment. Gross profit was \(\frac{1}{3}\)4.7 billion, down 20.2% year on year. Selling, general and administrative expenses were \(\frac{1}{3}\)3.2 billion, up 12.0% year on year. As a result, overall operating income was \(\frac{1}{4}\)4.5 billion, down 72.6% year on year.

Ordinary income decreased 54.7% year on year to ¥9.0 billion, despite an increase in non-operating income year on year due to dividend income from investment securities held and foreign exchange gains.

Profit for the quarter attributable to owners of the parent was \(\frac{\x}{8}\).3 billion, down 37.9% year on year.

The results for each segment are as follows. Segment results are presented including intersegment sales and transfers.

From the first quarter ended June 30, 2022, the Group has changed the way it presents its reportable segments, with year-on-year comparisons and analysis now made using these changed segment classifications. For details, please refer to "2. Consolidated Financial Statements (3) Notes to Quarterly Consolidated Financial Statements (Segment Information, etc.) II Three months ended December 31, 2022, 3. Matters pertaining to changes in reportable segments, etc."

Architectural Construction Business

The segment recorded net sales of \(\frac{\pma}{2}36.3\) billion (up 7.2% year on year), and the segment loss (operating loss) was \(\frac{\pma}{3}.5\) billion (segment income was \(\frac{\pma}{6}.9\) billion in the same quarter of the previous year).

On a non-consolidated basis, orders received from domestic private sector construction increased 2.7% year on year, while orders received from domestic public sector construction decreased 44.1% year on year, resulting in an overall decrease of 9.4% year on year, to \(\frac{1}{2}\)169.2 billion.

Civil Engineering Business

The segment recorded net sales of \(\frac{\pman}{100.2}\) billion (down 6.2% year on year), and the segment income (operating income) was \(\frac{\pman}{6.8}\) billion (down 1.4% year on year).

On a non-consolidated basis, overall orders received decreased 12.6% year on year to \quantum 82.6 billion, due to a 12.8% decrease year on year in domestic public sector construction orders and a 9.5% decrease year on year in domestic private sector orders.

Domestic Investment and Development Business

The segment recorded net sales of ¥14.0 billion (down 18.9% year on year), and the segment income (operating income) of ¥800 million (down 74.7% year on year).

Domestic Group Companies Business

The segment recorded net sales of \(\frac{\pma}{3}\)3.4 billion (up 35.4% year on year), and the segment income (operating income) of \(\frac{\pma}{6}\)600 million (up 187.0% year on year).

Overseas Investment and Development Business

The segment recorded net sales of \$15.4 billion (up 814.6% year on year), and the segment income (operating income) of \$1.1 billion (up 118.2% year on year).

Environment and Energy Business

The segment recorded net sales of ¥1 billion (up 151.9% year on year), and the segment loss (operating loss) of ¥100 million (segment loss was ¥600 million in the same quarter of the previous year).

(2) Explanation of Financial Position

Assets, Liabilities and Net Assets

Assets

Total assets as of December 31, 2022 were ¥795.9 billion (up 4.6% year on year), a ¥34.7 billion increase from the end of the previous fiscal year, despite decreases of ¥37.2 billion in cash and deposits and ¥12.4 billion in investment securities, but increased ¥54.5 billion in notes receivable, accounts receivable from completed construction contracts and other, ¥14.1 billion in construction in progress, and ¥10.5 billion in costs on uncompleted construction contracts.

Liabilities

Total liabilities as of December 31, 2022 were \(\frac{\pmathcal{4}}{476.4}\) billion (up 7.8% year on year), a \(\frac{\pmathcal{3}}{34.3}\) billion increase from the end of the previous fiscal year. The main contributors to this increase were decreases of \(\frac{\pmathcal{5}}{5.9}\) billion in income taxes payable and \(\frac{\pmathcal{5}}{5.0}\) billion in bonds payable, and increases of \(\frac{\pmathcal{3}}{33.6}\) billion in long term loans payable, \(\frac{\pmathcal{7}}{4}\) billion in advances received on uncompleted construction contracts, and \(\frac{\pmathcal{5}}{5.9}\) billion in short term loans payable.

Net Assets

Total net assets as of December 31, 2022, were ¥319.5 billion (up 0.1% year on year), a ¥400 million increase from the end of the previous fiscal year, and the shareholders' equity ratio was 39.3%. Although net unrealized gains on available-for-sale securities decreased by ¥5.3 billion due to the sale of shares held and the decline in market values, this was mainly attributable to an increase in non-controlling interests of ¥4.4 billion resulting from PT Tatamulia Nusantara Indah becoming a consolidated subsidiary, and an increase in foreign currency translation adjustments of ¥2.5 billion due to the depreciation of the Japanese yen.

(3) Explanation of Consolidated Results Forecasts and Other Forward-looking Information

(Adoption of Special Accounting Methods for Preparing Quarterly Consolidated Financial Statements)

	Nine months ended December 31, 2022
	(April 1, 2022 through December 31, 2022)
	In calculating tax expenses, the Company has made a reasonable estimate of the
	effective tax rate, to which tax effect accounting has been applied to profit before
Calculation of tax	income taxes and non-controlling interests for the consolidated fiscal year, including
expenses	the third quarter ended December 31, 2022. We have then made our calculations by
	multiplying profit before income taxes and non-controlling interests by this
	estimated effective tax rate.

(Changes in Accounting Policies)

(Implementation guidance on accounting standard for fair value measurement)

With the application of the Implementation Guidance on Accounting Standard for Fair Value Measurement (ASBJ Guidance No. 31, June 17, 2021; hereinafter, the "Fair Value Measurement Standard Guidance") effective from the beginning of the first quarter ended June 30, 2022, the new accounting policies specified in the Fair Value Measurement Standard Guidance will be prospectively applied in accordance with the transitional treatment specified in Paragraph 27-2 of the Fair Value Measurement Standard Guidance. This change in accounting policies shall have minimal impact on the quarterly consolidated financial statements.

(Notes) 1. The adjustment amount of \$(1,219) million for segment income (loss) is eliminations of intersegment transactions.

2. Segment income (loss) is adjusted with operating income in the quarterly consolidated statements of income.

2. Information on impairment loss of noncurrent assets and on goodwill, etc. by reportable segment

(Significant impairment loss pertaining to noncurrent assets)

The recoverability of construction in progress in the "Environment and Energy Business" segment was examined, considering future revenue and expenditure projections. As a result, the book value was reduced to the recoverable amount, and the amount of the reduction was recorded as an impairment loss under extraordinary losses. The amount of such impairment loss was \(\frac{\pma}{2}\),784 million for the nine months ended December 31, 2022.

(Significant changes in the amount of goodwill)

In the "Overseas Investment and Development Business" segment, during the second quarter of the fiscal year, the Company acquired additional shares of PT Tatamulia Nusantara Indah, an equity method affiliate, and made it a consolidated subsidiary. The increase in goodwill due to this event was ¥1,112 million for the period under review.

3. Matters pertaining to changes in reportable segments, etc.

(Changes in segment classification)

From the first quarter ended June 30, 2022, the conventional five reportable segment classifications of "Architectural Construction Business", "Civil Engineering Business", "Investment and Development Business", "Domestic Group Companies Business", and "New Business" shall be changed to six segment classifications, namely "Architectural Construction Business", "Civil Engineering Business", "Domestic Investment and Development Business", "Domestic Group Companies Business", "Overseas Investment and Development Business", and "Environment and Energy Business". These changes were made to align the reportable segment classifications with the classifications for the financial results targets in the Medium-term Management Plan 2024—Rolling Plan and the classifications of the business reports in the monthly report materials presented at meetings of the Board of Directors.

The segment information presented for the nine months ended December 31, 2021 is based on the classifications after these changes.
